# JOURNAL OF THE OPERATIONAL RESEARCH SOCIETY

World List Contraction: *J. Opl Res. Soc.*

Editorial Policy: The Journal is published 12 times a year on behalf of the Operational Research Society. It is the aim of the Journal to present papers which are relevant to practitioners, researchers, teachers, students and consumers of operational research, and which cover the theory, practice, history or methodology of O.R. However, since O.R. is primarily an applied science, it is a major objective of the Journal to attract and publish accounts of good, practical case studies. Consequently, papers illustrating applications of O.R. to real problems are especially welcome.
